Preview Part 14.....	205
Math as an Appraisal Tool.....	207
Solving Basic Appraisal Problems	208
Review Part 14	213
Review Quiz	214

Part 15. Math Applications in Real Estate

Preview Part 15.....	217
Percentage Problems	219
Tax Rate Calculations	223
Mortgage Calculations	226
Floor Area Ratio and Land-to-Building Ratio	229
Review Part 15	233
PRACTICE TEST Section 5	235

SECTION 6

Part 16. Measurements and Statistics

Preview Part 16.....	239
Measurement Basics.....	241
Statistical Concepts for Appraisers	246
Review Part 16	251
Review Quiz	252

Part 17. Introduction to Financial Calculations

Preview Part 17.....	255
Getting Started	257
Financial Calculations.....	259
Review Part 17	265
Review Quiz	266

Part 18. Time Value of Money Concepts

Preview Part 18.....	267
Understanding Cash Flow.....	269
Time Value of Money	274
Review Part 18	285
PRACTICE TEST Session 6	287

SECTION 7

Part 19. Analyzing Market Areas

Preview Part 19.....	289
Understanding Market Areas	291
Characteristics of Market Areas	293
Value Influences on Market Areas.....	296
District Types.....	299
Review Part 19	303
Review Quiz	304

Part 20. The Nature of Appraisals

Preview Part 20..... 305
Valuation Services and Appraisal Practice..... 307
Scope of Work 310
Review Part 20 315
Review Quiz 316

Part 21. Appraisal Principles in Practice

Preview Part 21..... 317
Problem Solving 319
Problems for Scope of Work Decisions 321
Review Part 21 329
PRACTICE TEST Session 7 331

SECTION 8

Part 22. Exam Content Review

Preparing for the Exam..... 335
Content Covered in the Course 336

Appendix

Part 1 337
Part 2 339
Part 3 341
Part 4 343
Part 14 345
Part 15 347
Part 17 349

Overview

Course Description

Basic Appraisal Principles is designed as an introductory course for individuals preparing for a career as a valuation professional. The course provides the first 30 hours of qualifying prelicensure education, which is commonly required by states for individuals seeking appraisal licensure.

The course uses experienced instructors to guide participants through introductory economic concepts. Participants learn the basic appraisal principles that can be used to build a solid foundation for an ethical and competent appraisal practice. Concepts such as highest and best use, the time value of money, and the nature of value are explored through instructor-led discussion. Real-world type problems are introduced to aid participants in developing their problem-solving skills.

Learning Enhancements

The course has been designed with a variety of elements to enhance your learning experience.

- **Preview.** To give you a taste of what is to come, you will find a *Preview* page that begins each Part. Included on the *Preview* page is a brief overview of the content, learning objectives to consider as you move through the content, and learning tips that will assist you in understanding the information you're about to learn.
- **Learning Objectives.** Each learning objective covers essential information you need to know to fully understand the concepts in the course. Look them over before the Part begins so that you have a frame of reference as you move through the material. At the end of each Part, reread the objectives. Are you able to do what is stated? If not, this is the time to ask your instructor for help. Or, review the concepts that you do not understand.
- **Examples & Problems.** Supplementing the discussions, we've included examples and problems to help you visualize and practice what you are learning.
- **Fill-in-the-Blanks.** It is a proven fact that when you write something down, you are more apt to remember it. The Course Handbook has "missing" content in the outline that you will need to add in the space provided in your handbook as the instructor goes over the content.
- **Review.** Each Part concludes with a review. Included in the review are the learning objectives and key terms and concepts that have been covered. Also, we've provided recommended readings from textbooks that will reinforce what you have learned in class.

- **Review Quizzes and Section Practice Tests.** Short quizzes are included at the end of most Parts, and Practice Tests are included at the end of each Section in the “Review.” The questions are similar to the types of questions you might find on the exam. By answering the true/false questions, fill-in-the-blanks, or multiple-choice questions, etc., you will know whether or not you really know the information that was covered in that Part. The Review Quizzes and Practice Tests are intended for self-study, and answers are found in the Solutions Booklet.

Classroom Guidelines

To make the learning environment a positive experience for everyone attending, please follow these guidelines:

- 100% attendance is required. No exceptions.
- Refrain from using short-range wireless technology.
- Limit use of laptops to classroom projects.
- Communicate with business associates during break time instead of class time.
- Put away reading materials such as newspapers and books that are not used in class.
- Silence cell phones.
- Use recording devices only if prior permission has been granted.
- Refrain from ongoing conversations with those seated near you and other distracting behavior.

General Information

- **Calculators.** A financial calculator is required. The accepted model used in the course is the HP 12C.

For additional help, go to the “Using a Financial Calculator” section of the Appraisal Institute’s Web site:

http://www.appraisalinstitute.org/education/fin_calc.aspx

- **Breaks.** There will be two 10-minute breaks during the morning session and two 10-minute breaks during the afternoon session unless noted otherwise by the course sponsor. The lunch break is one hour.
- **Attendance sheets** will be distributed during class to verify your attendance during the morning and afternoon sessions.

- **Certificates of completion** will be mailed after completion of the course, and attendance during the entire course is required.

Recommended Texts

- *The Appraisal of Real Estate*, 13th ed.
