Overview	vii
Schedule	xi

SECTION 1

Part 1. Historic Preservation Easements, Conservation Easements, and the Real Estate Appraiser

Preview Part 1.....	1
Differences and Similarities Between Conservation Easements and Historic Preservation Easements	3
Conservation and Preservation Easements and the Appraisal Profession: A Brief History and Basic Tax Donation Rules	10
Lessons from IRS Publication 561: Guidelines for the Appraisal of Historic Preservation Easements	18
Review Part 1	23

Part 2. General Considerations in Appraising a Historic Preservation Easement

Preview Part 2.....	25
Competency, Assignment Scope, Intended Use and User, Appropriate Report Type, and Qualified Appraisals Under IRS Regulations	27
When Is the Before and After Method Appropriate?.....	36
The Essential First Steps in the Appraisal Process: Reviewing the Easement Document, Researching the Easement-Holding Organization, and Researching the Market	39
Review Part 2	57

SECTION 2

Part 3. Highest and Best Use Analysis in Historic Preservation Easement Assignments

Preview Part 3.....	59
General Considerations in Highest and Best Use Analysis in Easement Appraisals	61

Highest and Best Use Analysis and the Historic Preservation Easement Appraisal.....	62
Review Part 3	79

Part 4. Historic Preservation Easements and the Sales Comparison Approach to Value

Preview Part 4.....	81
Finding Sales of Preservation Easement-Encumbered Properties.....	83
Researching and Analyzing Historic Preservation Easement Sales	84
Review Part 4	101

SECTION 3

Part 5. Preservation Easements and the Cost Approach to Value

Preview Part 5.....	105
Why the Cost Approach Is Often Especially Relevant in Historic Preservation Easement Assignments	107
Determining the Impact of the Historic Preservation Easement on Land Value.....	108
Building Value: Use of Reproduction Cost Rather than Replacement Cost.....	113
Building Value: Determining Effective Age and Remaining Economic Life	114
Legal Protections Provided by Historic Preservation Easements as an Element of External Obsolescence	122
Review Part 5	125

SECTION 4

Part 6. Preservation Easements and the Income Capitalization Approach to Value

Preview Part 6.....	127
The Potential Impact of Historic Preservation Easements on Income and Expenses	129
Analyzing the Potential Impact of Historic Preservation Easements on Capitalization and Discount Rates	130
Special Problems in the Application of the Income Capitalization Approach	136
Review Part 6	147

Part 7. Conservation and Preservation Easements and the Discounted Cash Flow Approach: General Considerations and Use in Valuation of Historic Rehabilitation Projects

Preview Part 7..... 149
General Considerations in Use of DCF Analysis in Preservation (Conservation) Easement Appraisals 151
Use of DCF Approach to Value of Historic Income Properties Undergoing Rehabilitation 155
Review Part 7 163

SECTION 5

Part 8. Conservation and Preservation Easements and the Discounted Cash Flow (Subdivision Development) Approach to Value of Historic Estates

Preview Part 8..... 167
When Should a DCF (Subdivision Development) Approach Be a Central Component of a Conservation and Preservation Easement Appraisal on a Historic Estate? 169
When Should a DCF (Subdivision Development) Approach *NOT* Be a Central Component of a Conservation and Preservation Easement Appraisal on a Historic Estate? 169
Why the Subdivision Development Approach Incorporating a Thorough DCF Analysis Is the Most Appropriate Technique for Valuing Large Historic Estates with Considerable Development Potential..... 170
Complying with the Standards of Professional Appraisal Practice in Using Either DCF Analysis or the Subdivision Development Approach..... 170
Steps in Proper Application of DCF Analysis to the Value of a Historic Estate Before and After a Preservation Easement 171
Review Part 8 177

Part 9. Reconciling the Results of the Approaches Used and Consideration of Possible Enhancements

Preview Part 9..... 179
Reconciling the Results of the Approaches Used 181
Consideration of Possible Benefits and Enhancements to Value 182
Review Part 9 189

Part 10. Testing the Results, Lessons from the Case Law, and the Review Appraisal Function in Preservation Easement Assignments

Preview Part 10..... 191
Techniques for Testing the Validity of the Easement Value Conclusion 193
Significant Case Law on Preservation and Conservation Easement Valuation Issues 193
Preservation Easements and the Review Appraisal Assignment 214
Review Part 10 217

SECTION 6

Part 11. Current IRS Issues and the Future of Historic Preservation Easement Appraising

Preview Part 11..... 219
Current IRS Review Issues 221
The Future of Appraising Historic Preservation and Conservation Easements 232
Additional Resources, Appendix and CD-ROM Materials, and Questions 233
Review Part 11 235

Part 12. Exam Preparation

Preparing for the Exam 237
Exam Content 237

Overview

Description

This three-day certificate program is intended to provide intensive training in the valuation of historic preservation easements. The certificate program combines lectures with intensive class discussions of appraisal problems based on real-world situations. The certificate program also includes a significant homework assignment following Day 1 and a shorter homework assignment following Day 2. Each assignment will be discussed in class the following morning.

This program focuses on appraising the value of preservation easements that are donated as charitable gifts under the Internal Revenue Code. The methods and techniques discussed are also relevant to the appraisal of preservation easements that are granted in order to obtain state or local income tax or property tax deductions/credits.

The impetus for this certificate program comes from concerns expressed both within and without the appraisal profession for an educational program dealing with the appraisal of preservation easements. The program's intent is to respond to the provision in the IRS Transitional Guidance Rule of November 2006, which was adopted following the enactment of the Pension Protection Act of 2006. The Act requires that appraisers who appraise easements donated after February 2007 "must have a combination of education and experience relevant to the property being valued, and describe such education and experience in the appraisal."

This certificate program is also intended to complement the *Valuation of Conservation Easements* certificate program. It is jointly developed by the Appraisal Institute, the Land Trust Alliance, the American Society of Appraisers, and the American Society of Farm Managers and Rural Appraisers. Appraisers who complete both certificate programs will have a thorough grounding in the appraisal principles, issues, and techniques of this complex and specialized area of appraisal practice.

Upon successful completion of the *Appraising Historic Preservation Easements* program curriculum and passing the program exam, participants will receive a Certificate of Completion. This Certificate will provide participants with evidence that they have completed education in this topic for potential clients and employers. **Note.** This Certificate of Completion does not provide certification of any kind, nor does it attest to the competency of the participants. Recipients of a Certificate of Completion may represent that they have completed the program's curriculum and passed the examination. However, recipients of a Certificate of Completion may not represent themselves as certified in valuation of preservation easements, as holding a certification in valuation of preservation easements, or as having a specialization, competency, or expertise based solely on the successful completion of the program. The program provider does not assume any duty to the public for the services provided by program participants, or any other person or entity.

At the conclusion of the certificate program, participants will be able to

- Describe what a historic preservation easement is and what a conservation easement is.
- Explain the similarities and the differences between a conservation easement and a historic preservation easement.
- Interpret recent national legislative and IRS guidelines and initiatives related to the appraisal of donated conservation and historic preservation easements.
- Eliminate many of the misconceptions in the appraisal community about how to undertake a historic preservation easement appraisal assignment.
- Describe recent initiatives from the Appraisal Institute, the Land Trust Alliance, and other organizations related to valuation methodologies, professional standards, courses, and certification.
- Explain the typical provisions of a historic preservation easement and how to handle the variations in possible easement provisions in the appraisal process.
- Recognize the central role of highest and best use analysis in historic preservation easement appraisals both before and after considering the easement.
- Explain the differences between legal protections provided by local landmark/historic district designation and by listing in the National Register, the differences between the protections in those designations and the protections provided by preservation easements, and how to handle those differences in the highest and best use and valuation analysis.
- Relate the history of the before and after method as it applies to easement-encumbered properties and recognize when the before and after method is and is not applicable.
- Recognize accepted and appropriate techniques for finding, researching, and analyzing sales of easement-encumbered properties.
- Demonstrate when and how the sales comparison approach can be applied to the value of an easement-encumbered property after considering the easement.
- Demonstrate when and how to apply the cost approach to the value of an easement-encumbered property.
- Demonstrate when and how to apply the income capitalization approach to the value of an easement-encumbered property.

- Analyze the pros and cons of discounted cash flow analysis (development approach) before as well as after considering the preservation easement and demonstrate how to properly apply DCF analysis in the highest and best use and appraisal process.
- Recognize how the purpose of the appraisal (e.g., property tax reduction, charitable gift deduction, eminent domain taking) and the use of the appraisal (e.g., initial support for a charitable gift deduction, administrative review proceeding, Tax Court litigation) may affect the appraisal format and content.
- Examine the most significant Tax Court case law on preservation easement valuation and recognize how to utilize the Tax Court cases as a check on the analysis and conclusions of a preservation easement appraisal assignment.
- Identify the sources and resources that can assist the appraiser in understanding and appraising easements.

Learning Enhancements

The certificate program has been designed with a variety of elements to enhance your learning experience.

- **Preview.** To give you a taste of what is to come, each Part begins with a Preview page that identifies learning objectives to consider as you move through the content.
- **Learning Objectives.** Each learning objective covers essential information you need to know to fully understand the concepts in the certificate program. Look them over before the Part begins so that you have a frame of reference as you move through the material. At the end of each Part, reread the objectives. Are you able to perform what is stated? If not, this is the time to ask your instructor for help. Or, review the concepts that you do not understand.
- **Discussion Questions.** Discussion questions provide you with additional ideas to consider as you absorb what you are learning.
- **Appendix and CD-ROM.** The Appendix includes sample portions of easement appraisals for review and discussion—such as market analysis, highest and best use analysis, sales comparison approach, cost approach, income capitalization approach, and discounted cash flow analysis (both before and after considering the easement). The Appendix also provides excerpts from key cases and other resources. In addition, you will receive a CD-ROM with *Appraisal Journal* articles, a comprehensive bibliography, and other resources.

- **Homework.** A separate component includes homework problems.
- **Solutions.** A separate component includes the solutions. Here you will find the answers for the discussion questions and the homework problems.

Classroom Guidelines

To make the classroom environment a positive experience, please follow these guidelines:

- Silence cell phones.
- Communicate with business associates during break time instead of class time.
- Limit use of laptops to classroom projects.
- Put away reading materials such as newspapers and books that are not used in class.
- Use recording devices only if prior permission has been granted.
- Refrain from ongoing conversations with those seated near you and other distracting behavior.

General Information

- **Calculators.** A financial calculator is required. The accepted model used in the certificate program is the HP-12C.
- **Breaks.** There will be two 10-minute breaks during the morning session and two 10-minute breaks during the afternoon session. The lunch break is one hour. A meal is not provided unless specified in the sponsor's advertising or in your certificate program confirmation materials.
- **Attendance sheets** will be distributed during class to verify your attendance during the morning and afternoon sessions. Attendance for the entire certificate program is required.
- **Certificates of completion** will be e-mailed upon completion of the certificate program.
