

Subjects

Appraisal reports

- descriptive versus analytical appraisal reports, 256–257
- identification of property-related risks in appraisal reports, 257–263
- framework for risk analysis in appraisals, 260–263
- primary types of risk to discuss in appraisal reports, 259–261

Commercial real estate

- inferred demand analysis using demographic data, 11–16
- market analysis in commercial real estate assignments, 11–26
- physical, economic, and valuation factors in market research and analysis, 24
- supply and demand analysis for office buildings, 16–25

Condemnation

- partial takings and contributory value in condemnation, 126–144
- summary of Appraisal Institute text on condemnation, 54–64

Continuing care facilities

- resources for valuation of senior housing properties, 208–212

Data

- comparison of macro-level and micro-level residential data, 43–44

Energy-efficient features

- measuring market reaction to energy-efficient features, 27–41

Fannie Mae and Freddie Mac

- Fannie Mae and Freddie Mac measurement of market reaction to energy-efficient features, 27–32

Federal banking regulations

- core federal valuation program resources, 124
- federally regulated appraisal-related areas, 115–123

FHA Single Family Housing Policy Handbook

- FHA measurement and reporting of contributory value, 32–34

High-voltage transmission lines (HVTLs)

- case study approach to measuring value effect of HVTLs, 267–268
- effect of high-voltage transmission lines on single-family house value, 264–277
- statistical analysis to measure sale price effects of HVTLs, 267

Liability

- property inspection liability issues, 49–50

Market analysis

- market analysis in commercial real estate appraisals, 11–26

Market reaction

- measuring market reaction to energy-efficient features, 27–41
- physical, economic, and valuation factors in market research and analysis, 24
- possible ways to measure market reaction, 39–40

Multifamily property

- appraising in the secondary/tertiary multifamily rental markets, 234–247
- comparison of multifamily capitalization rates, 236–238, 240–241, 245–246
- comparison of per-unit data in major markets and secondary/tertiary markets, 238–240, 243–244

Price effects

- price effect of high-voltage transmission lines on single-family houses, 264–277
- price effect of vacancy on single-family houses, 248–255

Residential property

- appraisal of timeshare interests, 95–114
- measuring market reaction to energy-efficient features, 27–41
- price effect of high-voltage transmission lines on single-family houses, 264–277
- price effect of vacancy on single-family houses, 248–255
- primary and secondary data collection, 42–53
- valuation of parcels in partial takings, 126–144

Retail property

- court holdings on valuation of single-tenant properties, 166–169
- distinguishing between real estate and real property, 190–192
- “go dark” valuation theory, 172–175, 182–188
- types and definitions of value and ownership interests in single-tenant property assignments, 175–178, 180–182, 192–201
- valuation methods for single-tenant “big-box” retail properties, 165–214

Risk

- identification of property-related risks in appraisal reports, 257–263
- framework for risk analysis in appraisals, 260–263
- primary types of risk to discuss in appraisal reports, 259–260

Timeshares

- identification of real estate market in timeshare valuation, 99–102
- unreliable website information, 109–111
- valuation of timeshare donations, 111–113
- website sources of timeshare market information, 105–107

Water rights

- resources for valuation of properties with water rights, 202–208

The Tradeoff between Single-Family Houses as Vacant or Lived-in: Evidence from the Bloomington-Normal Housing Market

Adebayo A. Adanri, PhD, SRA, and Han B. Kang, PhD, 248–255

Valuation Methods and Dark Big-Box Theories

Leslie P. Sellers, MAI, SRA, AI-GRS, and Paula K. Konikoff, JD, MAI, AI-GRS, 165–179

Authors

Adanri, Adebayo A., 248–255

Adomatis, Sandra K., 27–41

Blair, Benjamin A., 1–10, 83–94, 153–164, 221–233

Brigden, Charles T., 95–114

Chalmers, James A., 264–277

Crosson, Stephen T., v (Winter), iv (Spring), iv (Summer), v (Fall)

Heiland II, Gary E., 190–201

Kimball, William J., 234–247

Koepke, David W., 11–26

Konikoff, Paula K., 165–179

Lennhoff, David C., 180–189

Mills, Arlen C., 42–53

Parli, Richard L., 190–189

Rawson, Richard G., 115–125

Roddewig, Richard, 95–114

Sellers, Leslie P., 165–179

Sevelka, Tony, 126–144

Skolnik, Marin A., 256–263

Swango, Dan L., 54–67, 202–212

Cases in Brief

Acceptable evidence in valuing a power plant for property tax, 91–92

Appraisal of a racino can value fee simple interest assuming a lease if lease reflects relevant real estate market, 5–6

Appraisal rejected as unreliable where excluded relevant market comparables, 4–5

Consideration of an above-market power purchase agreement in valuing a power plant for property tax purposes, 83–84

Consideration of terms of ground lease in valuing casino property, 225–226

Exemption of property for nonprofit corporation, 93–94

Flow easement value established by rights in the land, not how easement is used. 1–2

Foreclosure sale as valid arm's-length sale, 161–162

Highest and best use in an easement condemnation dispute, 86–87

In temporary construction easement, condemnor liable for damages flowing from use of easement, not injury to business, 2–3

Inclusion of billboard income in valuation of real property for tax purposes, 88–89

Leasehold interest has no taxable value where interest is not freely assignable, 3–4

- Low-Income Housing Tax Credits not income in income approach in property tax valuation, 221
- Measure of damages in rails-to-trails takings, 230–231
- Owner does not have a compensable “right to visibility” for inverse condemnation purposes, 9–10
- Probability of assemblage in condemnation proceeding, 160–161
- Proper measure of casualty damages needed for federal income tax deduction, 228–229
- Relevance of atypical sale of unique property, 158–160
- Relevance of leased fee sale for fee simple valuation, 162–163
- Relevant evidence in construction condemnation case, 154–155
- Reliability standards for appraisals in a condemnation action, 92–93
- Reliance on multiple witnesses in arriving at a condemnation value, 231–232
- Speculative nature of proposed use in condemnation action, 155–156
- Stabilized occupancy in mall property tax appraisal, 223–224
- Superadequacy of a property in valuation for a bankruptcy proceeding, 89–90
- Taxation of possessory interest in aircraft hangar facility, 224–225
- Tenant’s right to just compensation extinguished when condemnation terminates lease, 6–7
- Use determines property classification for tax purposes, 156–157
- Valuation in partition of a tenancy-in-common, 163–164
- Valuation of a conservation easement for federal tax deduction purposes, 84–85
- Valuation of a hotel in a bankruptcy dispute, 90–91
- Valuation of conservation easements for charitable contribution, 157–158
- Valuation of individual unsold units in condominium development is proper for property tax assessment purposes, 8–9
- Valuation of leasehold and docks in tax assessment of marina and yacht club, 227–228
- Valuation of possessory interest with intangible concession rights, 153–154
- Value of a reversionary interest in a utility condemnation action, 222–223
- Value of an assisted-living facility for property tax purposes, 85–86
- Value of tenant’s rights in valuation of fee interest, 232–233
- Where LLC’s sole asset is real property, valuation of member’s interest is of portion of real property, not portion of LLC interest, 7–8
