Q. Why must I pass the diagnostic test before I can register for an MAI designation education course?

A. To successfully complete courses in the MAI designation education curriculum, it is important that you have advanced Excel spreadsheet skills. Therefore, before enrolling in an MAI designation education course, you are required to pass a challenging diagnostic test in which you demonstrate mastery of creating and working with Excel spreadsheets. **If you have difficulty with the diagnostic test, you will struggle in the MAI courses.** The test is free and can be taken at any time on your personal computer. After you successfully pass the test, you may register for any of the MAI designation courses.

Q. When should I take the diagnostic test?

A. You may take the test at any time. However, keep in mind that you must receive your “pass” grade confirmation at least 14 days before the classroom session begins. We recommend that you take the test at least 7 days before the classroom session of the course begins. This allows you at least a week to complete the online session of the course.

Q. What can I expect to see on the diagnostic test and how can I prepare?

A. You should be familiar with Excel functions such as copy/paste, data and cell formatting and mathematical formula creation. In addition, You must be able to solve basic statistical equations (e.g., sum, average, median, stdev, COV, etc.), know how to solve day-to-day appraisal problems involving adjustments and rounding, and be able to solve financial appraisal problems (e.g., PV, PMT, FV, IRR, etc.). You should also be able to project income and expenses as part of a discounted cash flow analysis. Also, be familiar with the use of absolute "\$" and relative cell references in formulas.

During the exam, you may use online resources for help if you get stuck, but you may NOT copy and paste formulas from the internet directly into the spreadsheet; doing so will automatically result in your answer being marked incorrect

In addition to brushing up on your Excel skills, be sure to review basic appraisal principles, procedures, and income course materials. Become familiar with Excel's Search and Help functions.

If you do not have a strong foundation in Excel, you will not be successful in the MAI courses.

Q. Is Excel required to take the diagnostic test?

A. Yes. Microsoft Excel is required to take both the test and the MAI designation courses.

Q. What version of Excel is required to take the diagnostic test?

A. Excel 2010 or later is required to take the test.

Q. May I use a spreadsheet program other than Excel to take the diagnostic test?

A. No. Microsoft Excel 2010 or later is required for both the diagnostic test and the MAI designation courses.

Q. How and where do I take the diagnostic test?

A. After [registering](#) for the test, sign in to the Appraisal Institute's [Knowledge Center](#) with your AI username and password. Select the *Go To Class* link to access the online education system, Canvas. You will then be asked to open an Excel workbook and complete various spreadsheet tasks before submitting the diagnostic test via the online education system. You will receive immediate test results and feedback.

Q. How long will it take me to complete the diagnostic test?

A. The test will take approximately one hour, depending on your skill level.

Q. When will I receive my diagnostic test results?

A. A pass/fail score will appear on your screen immediately after you submit the diagnostic test.

Q. If I do not pass the diagnostic test, may I retake it?

A. Yes, you may retake the test up to 10 times. Before reattempting the test, we highly recommend self-study through Excel tutorials available via Google, YouTube, [Lynda.com](#), etc. This diagnostic test was intentionally designed to be challenging and ensure you have mastered above-average Excel skills. If you did not pass, you require further study and mastery of Excel.

Q. Where can I learn more about Excel?

A. The Appraisal Institute is finalizing development on a new course, Excel Applications for Valuation Professionals, which is scheduled for release late 2019. Additional resources include:

- [Mixed cell references](#)
- Getting started with Excel 2010
- Create your first Excel 2013 workbook
- Excel 2016 for Mac Help.

Or enroll in a basic Excel class, such as the Appraisal Institute's [Excel: Making Your Job Easier Using Excel Spreadsheets](#), or [Using Spreadsheet Programs in Real Estate Appraisals--The Basics](#).

Q. Does each MAI designation education course have its own diagnostic test?

A. No. There is only one diagnostic test for all four courses. As soon as you have passed this test, you'll be allowed to register for the MAI designation courses.

Q. If I want to challenge all of the MAI designation education courses, do I need to pass the diagnostic test?

A. No. If you wish to challenge ALL FOUR of the MAI designation education courses, you do not have to take the test.

Online Session

Q. Is the online session mandatory?

A. Yes, each MAI designation education course has been designed with a mandatory two-hour online session. This session is the official beginning of the course. Participants have the flexibility to complete the online session at their own speed when it is most convenient for them. The two-hour online session MUST be completed and it MUST be completed 2 days BEFORE the classroom session begins.

Q. How much work do I have to complete in the online session? Is it recorded?

A. The content in the online session is unique for each course. One course provides a content review to ensure that participants are up-to-speed; another may ask you to complete an actual assignment that is discussed in more depth during the traditional classroom course sessions. Work completed during the online session is submitted and is recorded.

Q. When do online sessions go live?

A. The online session goes live 28 DAYS before the classroom session begins. You have 26 days to complete the two-hour session. Access is turned off 2 days before the classroom or synchronous session begins. This gives instructors enough time to review what you have submitted and respond if necessary.

Q. What happens if I don't complete the online session in time?

- A. Four days before the online session ends, you will receive an e-mail alerting you that you have not finished and reminding you of the deadline. If you do not complete the online session, you will not get credit for the course.

Q. If I need help, how soon will an instructor respond?

- A. Instructors are asked to respond to students within 48 hours. National staff will respond to technical questions within 48 hours as well.

Miscellaneous

Q. When will I receive my course materials?

- A. If printed materials are chosen at registration, course handbooks are direct shipped to you 30 days before the classroom session of the course begins. Downloadable materials are available to all registrants immediately. To retrieve downloadable materials, sign in to the [Knowledge Center](#) with your AI username and password, and go to "My Programs."

Q. Are the MAI designation education courses approved for CE credit?

- A. The MAI designation education courses are approved for continuing education (CE) credit. Please see http://www.appraisalinstitute.org/education/state_aprv.aspx for the number of approved hours for each course for each state. **Note.** *Advanced Market Analysis and Highest & Best Use* is approved for 35 CE hours (including the two-hour online session).
