**Overview** ................................................................................................................................. ix
**Course Schedule** ......................................................................................................................... xiii

## SECTION 1

### Introduction

- What Is an Appraiser? ........................................................................................................... 1
- Appraisal Practice .................................................................................................................. 1
- The Valuation Process ........................................................................................................... 3
- Career Perspective ............................................................................................................... 5
- Career Planning ..................................................................................................................... 5

### Part 1. The Appraiser and Public Trust

- Preview Part 1 ...................................................................................................................... 7
- Ethical and Competent Practice ........................................................................................... 9
- Exercising Sufficient Diligence .......................................................................................... 13
- Problem Identification and Scope of Work .......................................................................... 14
- Review Part 1 ...................................................................................................................... 17
- Review Quiz ......................................................................................................................... 18

### Part 2. The Nature of Real Estate

- Preview Part 2 ...................................................................................................................... 19
- Land Basics .......................................................................................................................... 21
- Fundamental Land Rights ..................................................................................................... 22
- Real Estate, Personal Property, and Real Property .............................................................. 26
- Review Part 2 ...................................................................................................................... 31
- Review Quiz ......................................................................................................................... 32

### Part 3. Rights and Interests in Real Estate

- Preview Part 3 ...................................................................................................................... 33
- Estates in Land ....................................................................................................................... 35
- Encumbrances ....................................................................................................................... 41
- Review Part 3 ...................................................................................................................... 47
- PRACTICE TEST Section 1 ................................................................................................. 49
## SECTION 2

### Part 4. Legal Description of Real Estate

- Preview Part 11...................................................................................................... 165
- Economic Principles in Real Estate ...................................................................... 167
- Introduction to the Concept of Highest and Best Use ......................................... 176
- Review Part 11..................................................................................................... 179
- Review Quiz ........................................................................................................ 181
Part 12. Applied Economics in Real Estate

Preview Part 12 ........................................................................................................ 183
12.1 Problem ........................................................................................................ 185
12.2 Problem ........................................................................................................ 186
12.3 Problem ........................................................................................................ 187
12.4 Problem ........................................................................................................ 187
12.5 Problem ........................................................................................................ 188
12.6 Problem ........................................................................................................ 189
12.7 Problem ........................................................................................................ 190
Review Part 12 .................................................................................................... 191
PRACTICE TEST Section 4 ................................................................................... 193

SECTION 5

Part 13. Market Fundamentals

Preview Part 13 .................................................................................................... 197
13.1 Dilemma ....................................................................................................... 199
Market Competition ............................................................................................ 200
Money Markets, Capital Markets, and Real Estate Markets ......................... 202
Monetary and Fiscal Policy ............................................................................... 206
Sources of Capital for Real Estate ................................................................. 209
Review Part 13 .................................................................................................... 211
Review Quiz ........................................................................................................ 213

Part 14. Real Estate Math Basics

Preview Part 14 .................................................................................................... 215
Math as an Appraisal Tool ............................................................................... 217
Solving Basic Appraisal Problems .................................................................. 218
Review Part 14 .................................................................................................... 223
Review Quiz ........................................................................................................ 224

Part 15. Math Applications in Real Estate

Preview Part 15 .................................................................................................... 227
Percentage Problems ......................................................................................... 229
Tax Rate Calculations ....................................................................................... 233
Mortgage Calculations ....................................................................................... 236
Floor Area Ratio and Land-to-Building Ratio .................................................. 239
Review Part 15 .................................................................................................... 243
PRACTICE TEST Section 5 ................................................................................... 245
SECTION 6

Preview Part 16 ................................................................. 249
Measurement Basics ......................................................... 251
Statistical Concepts for Appraisers ................................. 256
Review Part 16 ................................................................. 261
Review Quiz ................................................................. 262

Part 17. Introduction to Financial Calculations

Preview Part 17 ................................................................. 265
Getting Started ................................................................. 267
Financial Calculations ...................................................... 269
Review Part 17 ................................................................. 275
Review Quiz ................................................................. 276

Part 18. Time Value of Money Concepts

Preview Part 18 ................................................................. 277
Understanding Cash Flow ................................................. 279
Time Value of Money ...................................................... 284
Review Part 18 ................................................................. 295
PRACTICE TEST Section 6 .............................................. 299

SECTION 7

Part 19. Analyzing Market Areas

Preview Part 19 ................................................................. 301
Understanding Market Areas .......................................... 303
Characteristics of Market Areas ...................................... 305
Value Influences on Market Areas ................................. 308
District Types ................................................................. 311
Review Part 19 ................................................................. 315
Review Quiz ................................................................. 316
Overview

Course Description

*Basic Appraisal Principles* is designed as an introductory course for individuals preparing for a career as a valuation professional. The course provides the first 30 hours of qualifying prelicensure education, which is commonly required by states for individuals seeking appraisal licensure.

The course uses experienced instructors to guide participants through introductory economic concepts. Participants learn the basic appraisal principles that can be used to build a solid foundation for an ethical and competent appraisal practice. Concepts such as highest and best use, the time value of money, and the nature of value are explored through instructor-led discussion. Real-world type problems are introduced to aid participants in developing their problem-solving skills.

Learning Enhancements

The course has been designed with a variety of elements to enhance your learning experience.

- **Preview.** To give you a taste of what is to come, you will find a *Preview* page that begins each Part. Included on the *Preview* page is a brief overview of the content, learning objectives to consider as you move through the content, and learning tips that will assist you in understanding the information you’re about to learn.

- **Learning Objectives.** Each learning objective covers essential information you need to know to fully understand the concepts in the course. Look them over before the Part begins so that you have a frame of reference as you move through the material. At the end of each Part, reread the objectives. Are you able to do what is stated? If not, this is the time to ask your instructor for help. Or, review the concepts that you do not understand.

- **Examples & Problems.** Supplementing the discussions, we’ve included examples and problems to help you visualize and practice what you are learning.

- **Fill-in-the-Blanks.** It is a proven fact that when you write something down, you are more apt to remember it. The Course Handbook has “missing” content in the outline that you will need to add in the space provided in your handbook as the instructor goes over the content.
- **Review.** Each Part concludes with a review. Included in the review are the learning objectives and key terms and concepts that have been covered. Also, we’ve provided recommended readings from textbooks that will reinforce what you have learned in class.

- **Review Quizzes and Section Practice Tests.** Short quizzes are included at the end of some Parts, and Practice Tests are included at the end of each Section in the “Review.” The questions are similar to the types of questions you might find on the exam. By answering the true/false questions, fill-in-the-blanks, or multiple-choice questions, etc., you will find out whether or not you really know the information that was covered in that Part. The Review Quizzes and Practice Tests are intended for self-study, and answers are found in the Solutions Booklet.

- **Digging Deeper.** Digging Deeper information goes beyond the scope of the course and is not intended to be covered in class. It is not tested on the course exam; however, appraisers preparing for the comprehensive exam should be familiar with it, as well as all other material contained in the Course Handbook, whether or not it is presented in class.

**Classroom Guidelines**

To make the classroom environment a positive experience for everyone attending, please follow these guidelines:

- 100% attendance is required. No exceptions.
- Limit use of laptops to classroom projects.
- Communicate with business associates during break time instead of class time.
- Put away reading materials such as newspapers and books that are not used in class.
- Silence cell phones.
- Use recording devices only if prior permission has been granted.
- Refrain from ongoing conversations with those seated near you and other distracting behavior.
General Information

- **Calculators.** A financial calculator is required. The accepted model used in the course is the HP 12C.

- No class time will be used to cover the operation of other calculators.

For additional help, go to the “Using a Financial Calculator” section of the Appraisal Institute’s Web site:

https://www.appraisalinstitute.org/education/education-resources/using-a-financial-calculator/

**Important Note.** Laptops, cellular phones, tablets, iPads, wearable technology (smart watch, Apple Watch, Google Glass, etc.) and other devices that can store data or connect to the Internet are **NOT** permitted during the exam. In addition, all watches, wallets, bags, and purses must be removed and stored out of reach prior to taking the exam.

- **Breaks.** There will be two 10-minute breaks during the morning session and two 10-minute breaks during the afternoon session unless noted otherwise by the course sponsor. The lunch break is one hour.

- **Attendance sheets** will be distributed during class to verify your attendance during the morning and afternoon sessions.

- **Certificates of completion** will be downloaded after completion of the course, and attendance during the entire course is required.
