**Schedule** ................................................................................................................................................. xiii

## SECTION 1

### Part 1. Origins of Eminent Domain

- Preview Part 1 ........................................................................................................................................... 1
- Origins of Eminent Domain .................................................................................................................. 3
- Definitions ............................................................................................................................................... 4
- Sources of Eminent Domain Law ........................................................................................................ 6
- Agencies with Power to Condemn .......................................................................................................... 7
- Limitations on Condemnation ................................................................................................................ 7
- Examples of Takings ............................................................................................................................... 8
- Review Part 1 .......................................................................................................................................... 13

### Part 2. The Litigation Environment

- Preview Part 2 ........................................................................................................................................... 15
- Standards, Ethics, and Liability .............................................................................................................. 17
- Attorney/Appraiser Relations ................................................................................................................ 17
- Appraiser’s Role ...................................................................................................................................... 19
- Just Compensation and Market Value ................................................................................................ 20
- Review Part 2 .......................................................................................................................................... 25

### Part 3. Property Rights

- Preview Part 3 ........................................................................................................................................... 27
- Real Estate and Real Property ................................................................................................................. 29
- Bundle of Rights .................................................................................................................................... 29
- Multiple Estates ..................................................................................................................................... 30
- Police Power .......................................................................................................................................... 32
- Access Rights ......................................................................................................................................... 35
- Easements .............................................................................................................................................. 35
- Examples of Easements ........................................................................................................................ 36
- Personal Property and Fixtures .............................................................................................................. 42
- Review Part 3 .......................................................................................................................................... 43
SECTION 2

Part 4. Land Use Regulation

Preview Part 4 ........................................................................................................... 45
Introduction .................................................................................................................. 47
Planning and Zoning .................................................................................................... 47
Entitlements .................................................................................................................. 48
Nonconforming Use .................................................................................................... 52
Reasonable Probability of Rezoning ......................................................................... 52
Environmental Issues ............................................................................................... 53
Review Part 4 ................................................................................................................. 55

Part 5. The Larger Parcel (Parent Tract)

Preview Part 5 ........................................................................................................... 57
Introduction .................................................................................................................. 59
Reason for the Larger Parcel Tests ........................................................................... 59
Effect of Unity on Valuation and Reporting ............................................................. 62
Interpretations of the Larger Parcel Rule ................................................................. 62
Problems on Larger Parcel Determination ............................................................... 64
Other Larger Parcel Considerations—Paper Plats .................................................... 74
Treatment of Easements as Part of the Larger Parcel .............................................. 75
Describing the Larger Parcel ...................................................................................... 76
Highest and Best Use of the Larger Parcel ............................................................... 77
Consistent Use Theory ............................................................................................... 78
Interim Use ................................................................................................................ 78
Review Part 5 ................................................................................................................. 79

Part 6. Defining the Project

Preview Part 6 ........................................................................................................... 81
Describing the Entire Project ...................................................................................... 83
Condemnation Blight and Project Enhancement ....................................................... 83
Project Influences that Can Diminish Property Values .......................................... 84
Project Influences that Can Increase Property Values ............................................. 85
Example of Project Influence ................................................................................... 85
Responsibility for Scope of the Project Rule ............................................................ 88
Determining Impacts of the Project ......................................................................... 89
Homework Assignment .............................................................................................. 95
Review Part 6 ................................................................................................................. 99
### SECTION 3

#### Part 7. Legal Measurements of Just Compensation

- Preview Part 7 ................................................................. 101
- Introduction ...................................................................... 103
- Federal Rule ....................................................................... 104
- State Rule ......................................................................... 107
- Consideration of Benefits Under the State Rule ................. 110
- Review Part 7 .................................................................. 111

#### Part 8. The Appraisal Process

- Preview Part 8 ................................................................. 113
- Subject Property ............................................................... 115
- Presentation of Analyses .................................................. 115
- Accuracy in Condemnation Actions ................................... 116
- Record Keeping ............................................................... 117
- Who Must Verify? ............................................................ 118
- Valuation Approaches ..................................................... 119
- Partial Acquisitions ......................................................... 123
- Use of Outside Experts .................................................... 125
- Review Part 8 .................................................................. 127

#### Part 9. Larger Parcel Valuation

- Preview Part 9 ................................................................. 129
- Subject Property ............................................................... 131
- Vacant Land ..................................................................... 131
- Improved Property .......................................................... 135
- Conclusion ........................................................................ 141
- Review Part 9 .................................................................. 143

#### Part 10. Description and Valuation of Part Taken

- Preview Part 10 ................................................................. 145
- Description of Part Taken ................................................ 147
- Valuation of Part Taken .................................................... 151
- Review Part 10 .................................................................. 159
SECTION 4

Part 11. Description and Valuation of Remainder

Preview Part 11 ........................................................................................................ 161
Value of the Remainder as Part of the Whole .......................................................... 163
Description of the Remainder After the Take and Construction of the Project .......... 163
Highest and Best Use of the Remainder ................................................................. 164
Applicable Approaches ......................................................................................... 167
Review Part 11 ........................................................................................................ 171

Part 12. Damages and Benefits in Partial Acquisition Cases

Preview Part 12 ........................................................................................................ 173
Damages in Partial Acquisition Cases ................................................................. 175
Types of Damages ................................................................................................. 176
The Estate Taken .................................................................................................. 177
Damage Studies ................................................................................................... 178
The Mathematics of Damages ............................................................................. 180
Estimating Damages ........................................................................................... 181
Noncompensable Damages ................................................................................. 184
Benefits in Partial Acquisition Cases ................................................................. 184
Rules of Offset ..................................................................................................... 185
Analyzing Benefits ............................................................................................. 191
Measuring Benefits ............................................................................................ 192
Review Part 12 ...................................................................................................... 203

SECTION 5

Part 13. Corner Clip Case Study

Preview Part 13 ..................................................................................................... 205
Corner Clip Case Study ....................................................................................... 207
Review Part 13 ..................................................................................................... 245

Part 14. Easement Case Study

Preview Part 14 .................................................................................................... 247
Easement Case Study .......................................................................................... 249
Review Part 14 .................................................................................................... 267
### SECTION 6

#### Part 15. Inverse Condemnation

- Preview Part 15 ................................................................. 269
- Introduction ................................................................. 271
- Inverse Condemnation Actions ................................. 272
- Two Types of Inverse Condemnation Cases .............. 273
- Measures of Compensation in Permanent Inverse Taking Cases .......... 276
- Measures of Damages in Temporary Inverse Taking Cases .............. 276
- Review Part 15 ................................................................. 279

#### Part 16. The Appraisal Report and Beyond

- Preview Part 16 ................................................................. 281
- Purpose and Function of the Appraisal ....................... 283
- Appraisal Report Format .............................................. 283
- Timing of Report .......................................................... 284
- Report Content ............................................................. 285
- Meetings with Other Experts ................................. 286
- The Review Process .................................................... 286
- Depositions ................................................................. 287
- Mediation ................................................................. 289
- Trials ................................................................. 289
- Review Part 16 ................................................................. 295

#### Part 17. Course Review

- Course Review ................................................................. 297
- Preparing for the Exam ................................................ 302
- Exam Content ................................................................. 302

#### Appendix A

- Glossary

#### Appendix B

- U.S. v. 320 Acres of Land, 605 F.2d 762 (5th Cir. 1979)
Overview

Description

Condemnation Appraising: Principles and Applications is a three-day course that is designed to teach experienced residential and commercial appraisers how to apply their knowledge of appraisal techniques and methodologies in solving unique valuation problems encountered in the appraisal of real estate for condemnation purposes. Participants will gain an understanding of the eminent domain process, rules and regulations governing condemnation appraisals, and important issues unique to this appraisal specialty. Through discussions and extensive problem-solving exercises, participants will acquire the tools they need to address issues such as the various valuation rules used by different jurisdictions, the identification and valuation of the larger parcel, and the estimation of damages and benefits.

This course is one of three courses that make up the Appraisal Institute’s Litigation Professional Development Program (other courses in the program include Litigation Appraising: Specialized Topics and Applications, and The Appraiser as an Expert Witness: Preparation and Testimony).

Note. Participants who complete courses in a Professional Development Program may represent that they have completed the program’s curriculum and passed the examinations. Participants may not represent themselves as having a specialization, certification, competency, or expertise based solely on the successful completion of the program. The program provider does not assume any duty to the public for the services provided by program participants, or any other person or entity.

Learning Objectives

- Recognize attorney/appraiser relations and describe the appraiser’s role.
- Understand how property rights and land-use regulations impact the condemnation appraisal process.
- Determine which property to appraise in a condemnation appraisal.
- Understand public projects and their impact on the subject property.
- Perform competent and admissible appraisals.
- Recognize the appraiser’s role in inverse condemnation actions.
- Understand the valuation concepts and rules of law and procedure typically used in a condemnation valuation jury trial.
**Learning Enhancements**

This course—one of three that comprise the Litigation Appraising Professional Development Program—has been designed with a variety of elements to enhance your learning experience.

- **Preview.** To give you a taste of what is to come, each Part begins with a Preview page that identifies learning objectives to consider as you move through the content.

- **Learning Objectives.** Each learning objective covers essential information you need to know to fully understand the concepts in the certificate program. Look them over before the Part begins so that you have a frame of reference as you move through the material. At the end of each Part, reread the objectives. Are you able to perform what is stated? If not, this is the time to ask your instructor for help. Or, review the concepts that you do not understand.

- **Examples and Problems.** Supplementing the discussions, we’ve included examples and problems to help you visualize and practice what you are learning.

- **Solutions.** A separate component includes the solutions. Here you will find the answers for the problems, homework assignment, and case studies.

**Classroom Guidelines**

To make the classroom environment a positive experience, please follow these guidelines:

- 100% attendance is required. No exceptions.

- Silence cell phones.

- Communicate with business associates during break time instead of class time.

- Limit use of laptops to classroom projects.

- Put away reading materials such as newspapers and books that are not used in class.

- Use recording devices only if prior permission has been granted.

- Refrain from ongoing conversations with those seated near you and other distracting behavior.
General Information

- **Calculators.** A financial calculator is required. The accepted model used in the course is the HP-12C. **Important Note.** Laptops, cellular phones, tablets, iPads, wearable technology (smart watch, Apple Watch, Google Glass, etc.) and other devices that can store data or connect to the Internet are **NOT** permitted during the exam. In addition, all watches, wallets, bags, and purses must be removed and stored out of reach prior to taking the exam.

- **Breaks.** There will be one 15-minute break during the morning session and one 15-minute break during the afternoon session unless noted otherwise by the course sponsor. The lunch break is one hour.

- **Attendance sheets** will be distributed during class to verify your attendance during the morning and afternoon sessions. Attendance for the entire certificate program is required.

- **Certificates of completion** will be e-mailed upon completion of the certificate program.
